10. Confidential Information:

Do not submit confidential information as part of the application. Applications containing such information will be returned without consideration. The Energy Commission project manager reserves the right to request a copy of the final DOE application submitted in response to a FOA at a later date. If this occurs, omit all confidential information contained in that document before submitting to the Energy Commission.

Applicants may *propose* to deliver confidential products during the course of the project if funded. If necessary, instructions on submitting confidential products will be provided by the Energy Commission prior to executing the Grant Agreement.

From the beginning of this PON process until the evaluation is complete and the NOPA is posted or the solicitation is canceled, the Energy Commission is required to hold all information received from Bidders (applicants) as confidential [Title 2 California Code of Regulations Section 2505(c)(2)(A)]. However, proposals and all submitted information will become public records after the Energy Commission completes the evaluation and/or scoring process and the NOPA is posted or the solicitation is canceled.

11. Administrative Information:

Federal

Projects selected by the federal government for funding must comply with federal administrative and national policy requirements. Applicants must review the requirements set forth by DOE in the relevant FOA and by the subsequent award documents.
